

NECKLACE LENGTHS

RYKIER JEWELRY
APPROXIMATE PLACEMENT
RYKIERJEWELRY.COM

WHERE EACH LENGTH SITS

- 16"** At the base of the neck, just above the collarbone.
40 cm
- 18"** On or just below the collarbone. The most common everyday length.
45 cm
- 20"** Below the collarbone, resting on the sternum.
50 cm
- 24"** Low on the chest, at or just above the bust line.
60 cm

■ Marked lengths are the ones we cast. Chains ship with an extender, so each adjusts within its range.

Placement is approximate. Where a chain falls depends on neck and frame.

MEASURING AT HOME

Take a piece of string, hold it where you want the chain to sit, mark it at the back of the neck, then lay it flat against a ruler. That number is your length.

MEASURE OVER YOUR NECKLINE

Measure over the top you usually wear, not bare skin. A collar changes where a chain falls by an inch or more.

STILL UNSURE

Email the studio with a photo of how you usually wear necklaces, or the length of a chain you already own. Answered within the day, weekends included.
