

BRACELET SIZING

RYKIER JEWELRY
CHAIN BRACELETS WITH A CLASP
RYKIERJEWELRY.COM

Sizes are the **length of the bracelet**, not your wrist. How it sits is your choice — close to the skin, or with movement. Measure the wrist, add the allowance you prefer, and take the nearest length.

- 1 Wrap a soft tape or a strip of paper around the wrist bone, where you would wear the bracelet. Snug against the skin, not tight.
- 2 Mark the overlap, lay the strip flat and measure it. That is your wrist measurement.
- 3 Add the allowance for the fit you want, then take the nearest bracelet length below. Between two sizes — take the larger.

WHICH WRIST EACH LENGTH FITS

BRACELET LENGTH	CLOSE FIT · +½"	STANDARD · +¾"	LOOSE · +1"
S 6¼" · 16 cm	wrist 5¾" · 14.6 cm	wrist 5½" · 14.0 cm	wrist 5¼" · 13.4 cm
M 6½" · 16.5 cm	wrist 6" · 15.2 cm	wrist 5¾" · 14.6 cm	wrist 5½" · 14.0 cm
L 7" · 17.8 cm	wrist 6½" · 16.5 cm	wrist 6¼" · 15.9 cm	wrist 6" · 15.2 cm

Bracelets run 6¼" to 7". If your wrist measures over 6½", email before ordering.

CLASP

Lobster clasp on all chain bracelets. If you fasten it one-handed, allow the fuller fit.

STILL UNSURE

Email the studio with your wrist measurement and the piece you are considering. Answered within the day, weekends included.

BANGLES

This guide is for chain bracelets with a clasp. Hinged bangles are sized differently — see the bangle size guide.
